DUTCH AUCTION COMPANY 'S WERELDS GROOTSTE VEILING VAN JUKEBOXEN VANUIT TILBURG

Stap binnen bij dit veilinghuis voor een reis terug in de tijd

Klassieke auto's, draaiorgels en vintage speelautomaten. Het Tilburgse veilingbedrijf Dutch Auction Company handelt in nostalgie. Binnenkort organiseert eigenaar Richard Singh 's werelds grootste veiling van jukeboxen.

Erik van Hest
Tilburg

Stap door de deur van een onopvallend bedrijfspand aan de Ringbaan-Noord en je waant je zo in de jaren 50. De tijd van Elvis Presley, Chuck Berry en de opkomst van rock-'n-roll. De tijd van de jukebox. In lange rijen staan ze hier schouder aan schouder naast elkaar. De Wurlitzers, de Rock-Olas, de Seeburgs en al die andere klassieke merken van mechanische muziekkasten. Meer dan honderd zijn het er, en op 24 februari gaan ze onder de hamer.

Veilingmeester die dag is Richard Singh, oprichter van het Tilburgse veilinghuis Dutch Auction Company. „In Tilburg zijn we misschien niet zo bekend, maar verzamelaars en handelaren vanuit de hele wereld weten ons te vinden", vertelt Singh.

Zo ook de eigenaar van de unieke collectie jukeboxen die in het bedrijfspand staat opgeslag. De verzameling was tot voor kort te bewonderen in het jukeboxmuseum De Panne in België. Toen dat museum de deuren moest sluiten, werd Singh gevraagd om de collectie te verkopen.

„Verzamelaars komen vaak naar ons toe als ze van hun collectie af willen, bijvoorbeeld omdat ze ruimte nodig hebben of omdat iemand is overleden", zegt Singh. „Dat komt omdat wij het hele verkoopproject van a tot z verzorgen. We regelen het transport en laten experts komen om de objecten na te laten kijken." Dat laatste is nodig voor de veiling. Belangstellenden willen alles weten van zo'n jukebox: jaartal, merk, gewicht, afmetingen, conditie.

Op basis van al die gegevens maakt Singh een schatting van de waarde en bepaalt hij een startprijs voor de veiling. In die startprijzen zijn voor de bezoekers zeer interessant, verwacht Singh. „Neem deze bijvoorbeeld. De Wurlitzer 2100 uit 1957. Een topstuk in deze collectie. De marktwaarde is 25.000 euro, maar onze startprijs is 5000 euro."

Ook onderdelen van een draaimolen worden geveild.

Ook liefhebbers van draaiorgels komen aan hun trekken.

Bodemprijs

Een blik in de keurig verzorgde veilingcatalogus laat zien dat de meeste startprijzen tussen de 500 en 1000 euro liggen. „Dit is dus dé kans om voor een bodemprijs aan een originele jukebox te komen."

De 44-jarige Singh begon ruim twintig jaar geleden met het handelen in de eerste mp3-spelers, maar al snel werd de concurrentie hem te groot. Singh besloot zich te richten op een bijzondere niche: retro-elektronica voor consumenten. Hij liet moderne jukeboxen bouwen, met dezelfde uitstraling als die uit de jaren 50 en 60, maar dan met cd-spelers en digitale opties zoals bluetooth. Uiteindelijk

Richard Singh tussen de jukeboxen die 24 februari in Tilburg onder de hamer gaan. FOTOS JULES VANDIPEREN/PIX4PROFS

kwam hij zo toch terecht in de handel van de originele, vintage jukeboxen.

Maar de Dutch Auction Company beperkt zich niet tot de muziekkasten. Eigenlijk veilt Singh zo'n beetje alles wat nostalgie naar de jaren 50, 60, 70 en 80 oproept. Draaiorgels, flipperkasten, neonlichtreclames, oldtimers, onderdelen van oude kermisattracties, Hollywood memorabilia, kauwgumblautomaten en vrijwel alle objecten waar je vroeger als kleine jongen door de Heuvelstraat liep, was ik altijd al gefascineerd door het draaiorgel. Ook de kermis vond ik altijd bijzonder, nog steeds trouwens. En als ik in een café was met een jukebox was, dan moest ik er een muntje in gooien."

Nu reist hij regelmatig de wereld over om 'collectables' te vinden voor zijn veilingen. Vaak is hij in Amerika te vinden, maar als groeiende afzetmarkt noemt hij ook India, het land waar zijn roots liggen.

Musea als klant

Andersom komen verzamelaars van heinde en verre naar Tilburg voor de veilingen. Particulieren, handelaren, maar bijvoorbeeld ook musea. Zo verkocht Singh laarst nog een object aan de directeur van een nieuw museum in Vietnam.

Ook 24 februari verwacht Singh weer een internationaal publiek. „Maar de veiling kan uiteraard ook online gevolgd worden." Voor belangstellenden die de jukeboxen eerst van dichtbij willen zien, zijn er op 22 en 23 februari kijkdagen gepland.

EXCLUSIEVE VEILING IN TILBURG:

De nalatenschap van Andy Tielman

De Dutch Auction Company presenteert op zaterdag 28 juni vanaf 11.00 uur met trots een uniek event: de exclusieve veiling van de nalatenschap van Andy Tielman, legendarisch frontman van de Tielman Brothers en grondlegger van de Indo-Rock in Nederland.

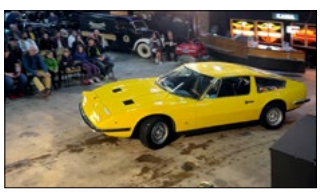

Andy Tielman, die in 2011 op 75-jarige leeftijd overleed, liet een muzikale erfenis achter die de Nederlandse muziekgeschiedenis mede vormgaf. Als drijvende kracht achter de Tielman Brothers bracht hij in de jaren vijftig de Indo-Rock naar het grote publiek. Met een carrière die begon in 1948 en meer dan zes decennia omspande, werd hij bekend als de 'Godfather van de Nederlandse Rock 'n Roll'.

In 1966 bracht hij zijn eerste solosingle uit: Little Lovely Lady. "Nu, 14 jaar na zijn overlijden, is het een eer om Andy Tielmans persoonlijke collectie te mogen veilen. Deze bijzondere veiling omvat zijn gitaren, memorabilia en unieke persoonlijke items, veelal nooit eerder publiek getoond. De Andy Tielman Collectie wordt geveild als onderdeel van onze Coin-op & Collectibles Veiling, met meer dan 500 kavels waaronder jukeboxen, arcadeautomaten, muziekverzamelobjecten en nog veel meer. The Auction House for Exceptional Collections and Collectibles

150 Years of Dutch Organ History. One Extraordinary Auction.

After more than 150 years, one of the world's most iconic organ workshops will close its doors forever. For the first time in history, the complete collection of the historic G. Perlee workshop in Amsterdam will be offered at public auction.

Founded in 1875, G. Perlee became one of the most respected names in the building, restoration and rental of street, fairground and dance organs. Since 1932, generations of the Perlee family have worked from the famous workshop at Westerstraat 119 in Amsterdam's Jordaan district, behind the characteristic high doors through which complete organs once rolled directly into the streets of Amsterdam.

Now, this remarkable legacy comes to auction. All lots will be offered one by one and sold to the highest bidder.

The collection includes historic street and fairground organs, original workshop machinery and workbenches, organ books and music rolls, tools, archives, façade elements, figures, parts and personal family memorabilia. Many of these pieces have remained in the workshop for generations and will now be offered to collectors, museums and enthusiasts around the world.

Among the absolute highlights is the famous 55-key street organ "De Pipo," built around 1920 and owned by the Perlee family since 1935. For decades, De Pipo filled the streets of Amsterdam with its rich, warm sound and becomes one of the best-known Dutch street organs in the world.

The auction will also feature selected consignments of additional organs, mechanical musical instruments and fairground pieces, creating an exceptional sale for collectors of mechanical music and historic fairground heritage.

This is a unique opportunity to acquire a remarkable piece of Dutch organ and fairground history.

UNIQUE ORIGINAL PUNCH PRESS (PRE 1914) FROM DECAP WORKSHOP IN ANTWERP, BELGIUM

Unique Original Punch Press (pre 1914) from Decap Workshop in Antwerp, Belgium. It comes with 9 tools included for punching various organ parts, some of which are labeled like the tool for Mortier organ keys and the tool for "Cello". This fully mechanical machine was originally used in historical barrel organ construction for punching out frets in various sizes for the manufacture of barrel organ pipe parts. The machine is also suitable for part production of various sizes, for registers ranging from violin to cello-grave. It is remarkable that this machine has not only been preserved completely but is also in exceptionally good, unworn, and fully functional condition. The machine can still be used for the same artisanal purpose for which it was built over a century ago.

The combination of age, functionality, complete condition, and the direct relationship with historical barrel organ construction makes this a special piece of industrial and musical heritage. A unique opportunity for collectors, enthusiasts of barrel organs, and historical craftsmanship to acquire an authentic, complete, and working instrument from the early 20th century. The impressive total weight of the machine is estimated to be around 1200 kg.

ORIGINAL 58-KEY GEBR. WELLERSHAUS FAIRGROUND CAROUSEL ORGAN WITH CONDUCTOR AUTOMATON

This 58-key fairground organ was built by the renowned Gebr. Wellershaus Orgelfabrik of Mulheim an der Ruhr (Saarn), Germany, and dates from the early 20th century. The organ has been in the current owner's family for over 50 years and was used as the musical centrepiece of their travelling carousel, which the family operated on the fairground circuit. It is an original Wellershaus organ and retains its impressive historic character.
A particularly interesting feature is the pair of round drum housings, specifically designed for installation and use within a carousel. The richly decorated wooden facade features elaborate carved and polychrome ornamentation, including rococo-style scrollwork, acanthus leaves and floral cartouches. At the centre is an animated conductor figure holding a baton, surrounded by an impressive arrangement of polished display pipes.
The organ is equipped with integrated percussion, including bass drum, snare drum and cymbals, creating the powerful musical presentation expected from a large traditional German fairground organ.
Included with the organ are three large endless music books and approximately 20 regular organ music books, providing an extensive selection of music.

PAUL LOSCHE GERMAN JAZZ BAND ORCHESTRION (CA.1928)

During the early 20th century, Paul Losche, known as the Leipzig Orchestrion Works, produced a wide variety of pianos and orchestrions in factories in and around Leipzig, Germany. They were also very well known for private labeling instruments for other manufacturers, and as such their products are not as well known to collectors. This example of a Losche orchestrion is their Jazz Band Piano, made in 1928. Bearing a striking resemblance to the Popper "Happy-Jazz-band" orchestrion, this instrument has piano with mandolin in the bottom cabinet, and drums, cymbals and percussion in the top cabinet. Walnut cabinet with original Losche decal, applied carvings to top and bottom cabinet, and painted bass drum head with 3 jazz musicians. The cabinet is showing an earlier refinishing with a deep rich finish that has aged well. The green cloth in the upper cabinet is replaced, the drum head appears original, the overall cosmetics show little wear. The instrument plays well, was restored earlier mechanically and continues to play well. A different sound from a jazz orchestrion when you use the right roll. Includes 24 music rolls. HISTORIC GERMAN FAIRGROUND CAROUSEL "DE BRUNSELAAR" (CA.1890 - 1900)

This impressive historic German fairground carousel, known as "De Brunselaar," dates from approximately the late 1890s to the early 1900s and represents a remarkable surviving example of the great European travelling carousel tradition. For many years the carousel belonged to the well-known Dutch Brunselaar fairground family, who travelled with and operated it at numerous fairs. It has been in the collection of the current owner for approximately 15 years and has continued to be operated as a functioning fairground attraction.
Measuring approximately 10 metres (32.8 ft) in diameter and 6.5 metres (21.3 ft) in height, the carousel is an imposing attraction when fully erected. It is complete and features an extensive collection of decorative riding figures and vehicles.
Of particular importance are the original German carousel horses and various historic riding attributes, including highly collectible L'Autopede vehicles. These individual figures and vehicles are desirable historic fairground collectibles in their own right and together represent a significant part of the carousel's value.The carousel retains an elaborate traditional appearance, with its richly decorated rounding boards, painted scenic panels, ornamental details and extensive fairground lighting. The upper decorative sections feature painted horse panels, floral decoration and heraldic shields, creating the characteristic appearance of a classic European travelling carousel.
An especially interesting feature can be found in the centre of the carousel, where an original facade from a Wrede fairground organ has been incorporated. This historic organ facade adds another important piece of German fairground heritage to the attraction and contributes considerably to its overall visual character.
A separate cashier's box is also included.

The carousel is in good and working condition and has been operated by its owners. Its latest TuV certification dates from several years ago; prospective buyers intending to operate the carousel commercially should therefore take into account that a new inspection and/or certification may be required according to the regulations applicable in their country.
At present, the complete carousel has been dismantled and is stored for transport in a triple-axle trailer. The trailer is not included in the sale, but is available for purchase separately at an additional cost.
With its age, substantial dimensions, complete ensemble of historic riding figures and vehicles, Brunselaar family provenance and decades of genuine fairground use, "De Brunselaar" offers a rare opportunity to acquire a complete historic travelling carousel rather than merely individual carousel components.
Suitable both as a working fairground attraction and as an important centrepiece for a museum, amusement collection, historic fairground collection or private estate.
Approximate dimensions when erected: Diameter: 10 m (32.8 ft), Height: 6.5 m (21.3 ft). Condition: Good and working.
Currently dismantled and stored for transport.

1 OF 2 RARE ORIGINAL FRIEDRICH HEYN CAROUSEL HORSES ON ROCKING PLATFORM, (CA.1900)

Rare original Friedrich Heyn carved wooden carousel horse on its individual rocking platform, made in Germany, ca. 1900.
The horse is carved in a dynamic galloping pose with outstretched legs and features an extensively decorated saddle and harness. The predominantly white-painted body is complemented by colourful ornamental details in red, orange, blue, green and black, characteristic of the richly decorated German carousel figures of the period.
Importantly, the horse remains mounted on its own individual rocking mechanism and platform, making this a substantial and complete historic fairground piece rather than an individual carousel horse alone.
The horse is presented in authentic, unrestored condition, showing age-related wear, cracking and losses to the painted surface consistent with its age and long history. The untouched appearance preserves the historic character and patina of this genuine antique fairground piece.
Two matching Friedrich Heyn rocking horses from the same collection are included in this auction and are offered individually as two separate lots. Each horse has its own separate rocking platform and mechanism.
Due to their current storage position, the owner was unable to remove the horses from the storage rack for individual photography. The photographs therefore show the horses in their present stored position.
This lot comprises one complete Friedrich Heyn carousel horse with its individual rocking platform and mechanism. The second example is offered separately in the following lot.

A rare and highly decorative example of German carousel craftsmanship from around 1900 and an attractive collector's piece for enthusiasts of antique carousel figures, historic fairground art and European amusement heritage.

55-KEY G. PERLEE STREET ORGAN "DE PIPO"

The legendary 55-key Perlee Street Organ "De Pipo" is one of the Greatest Highlights of The G. Perlee Amsterdam Organ Collection. Originally built around 1920 as a 54-key barrel organ by Joseph Bursens of Hoboken, Belgium, this remarkable instrument was first known as "De Vierenvijftig Bursens", referring to both its builder and original key count. The Warnies brothers originally owned the organ until their company closed, prompting its sale at a 1923 auction to a dance hall owner. In 1935, the Perlee family acquired the instrument, integrating it into one of the most prominent dynasties in Dutch street organ history. For decades, "De Pipo" filled the streets of Amsterdam with its rich, warm and unmistakable sound. It became especially well known in the Jordaan district, where it was famously played by renter Piet van der Haar through the organ rental company of Gijs Perlee.
In 1962, Gijs Perlee Jr. (1932-2008) transformed the organ by repainting its facade with Pipo de Clown, the famous character from Wim Meuldijk's popular Dutch television series. From then on, the organ carried the iconic name "De Pipo." The originally exposed organ pipes were covered with paintings of Corry Brokken, adding to the highly recognizable appearance the organ still has today.

A related "sister" organ, "De Mammaloe," named after Pipo's wife in the television series, also became part of this unique Dutch organ story. Now, after 91 years in the ownership of the Perlee family, this extraordinary organ will be offered at public auction for the very first time.
Today, "De Pipo" operates as a 55-key street organ and is presented in outstanding, museum-quality condition.
It features a melody section (15 notes: bourdon celeste, violins, tremolo), countermelody (13 notes: cello, celeste, piffaro, barrette), accompaniment (9 notes), ground bass (6 notes), and percussion (bass drum, cymbal, snare drum, and woodblock), and is accompanied by its original push cart, approximately 266 music books, and a historic photograph showing the organ in the streets of Amsterdam around 1965–1970.
Measurements provided for the organ with the cart, just the ogran measures 265 cm high x 345 cm wide x 118 cm deep. Size (H x W x D): 305 x 355 x 174 cm
Location: The historical G. Perlee Workshop in Amsterdam, The Netherlands

Estimates: EUR 60.000 - EUR 100.000
Starting Price: EUR 28.000

ONE-OF-A-KIND 1905 MAHAUDEN 80-KEY DANCE ORGAN

One-of-a-kind 1905 Mahauden 80-key dance organ, the only one known to us to exist. Built by Adolphus Gislenus Mahauden from Grammont, Belgium in 1905 starting with a Gavioli 87-key barrel organ serial no. #8055. Adolphus added other pipes, mostly by Mortier, and also by adding a glockenspiel, woodblock, and five chimes, he fashioned a dance organ using 12 registers. Adolphus Mahauden specialized in modifying other manufacturer's instruments, reconfiguring them to his own scale, adding bells, and register changes. Imported to the U.S. by G. W. MacKinnon, the organ was sold as a Ruth because at that time information about the organ builder Adolphus Mahauden was not known. The organ was first restored by Louie Svierveld in California in 1975, when Bill Nunn bought the organ it was playing but required furtherrestoration. Dick Lokemoen began chassis restoration in 2007 and the facade was restored by Stacy Nunn. The organ facade is currently in a very good visual condition showing some natural smaller and larger cracks in the wood, and some spots of a little paint loss, it features beautiful wood carving, oil painting, and gold & silver leaf decoration. The organ is in a very good playing condition, comes with 56 books of music, has a great Gavioli and early Mortier sound and features the following instrument pipes - bass, trombone, violin, baxophone, trumpet, bourdon, clarinet, cello, saxophone, flute harmonique, and the following percussion instruments - chimes, glockenspiel, snare drum, bass drum, woodblock, cymbals. Some parts of the description taken from the Tracy M. Tolzmann article - "Bill Nunn's Collection Farewell" in Carousel Organ, Issue No. 103-July, 2025. Size (H x W x D): 365 x 566 x 125 cm
Condition: Very Good

1914 HOOGHUYS 77-KEY DANCE ORGAN "THE SUNFLOWER"

Louis Hooghuys built this dance organ in 1914 on a special order from Theophiel Versyp (from Bruges) for use in his restaurant. After Louis died in 1924 the organ was bought by his son, Charles Hooghuys, modified with an updated scale for use in a cafe Charles had bought. The organ was sold again in 1931, with all-new music, for use on a fairground. Wallace McPeak imported the organ to America and it was subsequently bought by Ron Bennet from Plano, Texas. Bill Nunn wanted to expand his collection with an European organ that played book music and was referred to Ron who at that point had this organ in his possession for 40 years.
Realizing that he would never restore it, he finally sold the organ to Bill. When Bill got the organ it was partially dismantled and in very poor condition, even the keys were worn out. The entire organ needed to be thoroughly restored.
Currently, the organ facade is in very good visual condition showing some natural wear: small to medium cracks in the wood, hairline cracks in the oil paint, and some small spots of paint loss. Hooghuys organs are known for their unique sound and also the fast action of the key frame and valves.

The organ is currently in very good playing condition working on 110V power, comes with 136 music books and features the following instrument pipes - bass, trombone, saxophone, violin, Tibia, Vox Humana, accordion reeds, flute harmonique, oboe and the following percussion instruments - xylophone, snare drum, bass drum, woodblock and cymbals. The sound can be further modified with the organ swells and tremulant. Serial no.: LH620.
Size (H x W x D): 390 x 555 x 130 cm

2 OF 2 RARE ORIGINAL FRIEDRICH HEYN CAROUSEL HORSES ON ROCKING PLATFORM, (CA.1900)

Rare original Friedrich Heyn carved wooden carousel horse on its individual rocking platform, made in Germany, ca. 1900.
The horse is carved in a powerful galloping pose with outstretched legs, raised head and flowing mane. It retains its elaborate painted saddle and harness decoration, executed in an attractive traditional palette of red, orange, blue, green, black and white.
Importantly, the horse remains mounted on its own individual rocking mechanism and platform, creating a complete and imposing historic fairground piece.
Presented in authentic, unrestored condition, the horse displays considerable age-related patina, including wear, cracking and losses to the painted surface. Its untouched appearance reflects its age and history and gives the piece the character expected from a genuine antique fairground attraction.
Two matching Friedrich Heyn rocking horses from the same collection are included in this auction and are offered individually as two separate lots. Each horse has its own separate rocking platform and mechanism.
Due to their current storage position, the owner was unable to remove the horses from the storage rack for individual photography. The photographs therefore show the horses in their present stored position.
This lot comprises one complete Friedrich Heyn carousel horse with its individual rocking platform and mechanism. The matching example is offered separately in the preceding lot.

RARE ANTIQUE COIN-OPERATED "THE QUARTOSCOPE" PHOTOVIEWER - EARLY ARCADE PEEP-SHOW MACHINE (CA.1900)

An exceptional and rare original coin-operated "The Quartoscope" photoviewer, dating to the turn of the 20th century, circa 1895-1905. This early arcade machine represents one of the pioneering forms of visual entertainment, closely related to the Mutoscope and other pre-cinema viewing devices. Designed for use in fairgrounds, arcades, and seaside attractions, the Quartoscope allowed users to view photographic image sequences through a peephole viewer after inserting a coin. The machine is housed in an elegant quarter-sawn oak cabinet, raised on finely carved cabriole legs, and retains its original cast metal front panel with decorative relief and "Drop Coin Here" instruction. Internally, the original mechanical viewing system with photographic cards is still present, offering a fascinating glimpse into early motion picture technology. Pieces of this type are highly sought after by collectors of coin-operated machines, early cinema history, and arcade antiques, and rarely appear on the open market-especially in such a complete and visually appealing form. A true museum-quality display piece with strong decorative and historical value. The machine is in working condition. Works on 5 euro cent coins.

- Zodra het bod is geaccepteerd, worden geen klachten meer geaccepteerd.

4. HAMERPRIJS / VEILINGKOSTEN
- Over de hamerprijs wordt 25% veilingkosten gerekend. De veilingkosten zijn exclusief 21% btw* indien van toepassing.
- Voor auto's wordt 17% veilingkosten over de hamerprijs gerekend. Dit is exclusief 21% btw* indien van toepassing.

**Uitleg toepassing BTW over de veilingkosten (niet de kavels):*
> Particuliere kopers geregistreerd binnen Nederland en Europa worden gefactureerd inclusief BTW.
> Particuliere kopers geregistreerd buiten Europa en de aangekochte kavel exporteren, dus Europa verlaten, worden gefactureerd zonder BTW. Een bewijs van export van de kavels is een vereiste.
> Zakelijke kopers (bedrijven) geregistreerd in Nederland worden gefactureerd inclusief BTW.
> Zakelijke kopers (bedrijven) geregistreerd buiten Nederland maar binnen Europa worden gefactureerd zonder BTW.
> Zakelijke kopers (bedrijven) geregistreerd buiten Europa en de aangekochte kavels exporteren, dus Europa verlaten, worden gefactureerd zonder BTW. Een bewijs van export van de kavels is een vereiste.

Indien zakelijke kopers (bedrijven) van bovenstaande BTW regeling gebruik willen maken dienen zij zich ook als zakelijke koper (bedrijf) te registreren als bieder. Bedrijfsnaam, adres en BTW nummer zijn dan vereiste gegevens die bij inschrijving opgegeven dienen te worden.

- Opgelet voor online bieders: Indien u niet rechtstreeks bij Dutch Auction Company bied, maar online op een extern veiling platform hou dan rekening met de extra fee die door dat platform in rekening wordt gebracht. Dit is meestal rond de 5%. Op het platform wordt aangegeven welke percentage ze hanteren. De veilingkosten van 25% wordt dan verhoogd met dat extra percentage. Als het 5% is dan zijn de veilingkosten via het online platform dus 30%.

5. BETALING VAN DE KAVELS
- De geveilde kavels dienen binnen 5 dagen na de veiling volledig betaald en afgehaald te zijn op de veiling locatie, of locatie waar het kavel zich bevind anders de veiling locatie. Betaling kan contant (maximaal € 3.000,-), door een bank, of credit card betaling. Bij betaling met creditcard komt er 3% over het totale factuur bedrag bij in verband met extra credit card kosten.
- Voor het verlaten van de veilingzaal wordt elke koper verzocht de relevante formaliteiten op het veilingkantoor in ontvangst te nemen en een volledige betaling, of passende aanbetaling te doen.

6. AFHALEN VAN DE KAVELS
- De geveilde kavels worden pas na de veiling en na volledige betaling vrijgegeven.
- De kavels dienen uiterlijk binnen 5 dagen na de veiling te zijn opgehaald. Afhalen gaat in overleg met het veilinghuis. Alle kavels die langer dan 5 dagen na de veiling bij ons achterblijven, zijn onderhevig aan een opslagvergoeding van € 20 per dag, tenzij vooraf schriftelijke afspraken zijn gemaakt. Kavels die na 30 dagen niet zijn afgehaald, worden als achtergelaten beschouwd en zullen worden verkocht ter dekking van de gemaakte kosten.
- Indien u assistentie wenst bij verzending kunnen wij u in contact brengen met een transportbedrijf dat wereldwijd transport kan organiseren.
- Wij kunnen onze bieders assisteren door de gekochte kavels intern te verpakken. Wij verpakken de items naar beste kunnen, maar kunnen geen garanties of verzekering bieden en aanvaarden geen enkele verantwoordelijkheid voor schade aan of verlies van goederen tijdens transport. Indien u garanties of verzekering wenst, verzoeken wij u gebruik te maken van een externe partij voor verpakking en verzending, of uw kavels zelf af te halen.

7. JURIDISCHE KWESTIES / AANSPRAKELIJKHEID
- The Dutch Auction Company behoudt zich het recht voor om voor en tijdens de veiling of totdat het bod is geaccepteerd wijzigingen en opmerkingen aan te brengen in de kavelbeschrijving. Er kunnen ook objecten worden toegevoegd of verwijderd.
- The Dutch Auction Company treedt als verkoopcommissaris volgens artikel 7:425 BW op voor rekening van de verkoper. Elke aansprakelijkheid voor defecten wordt uitgesloten in overeenstemming met paragraaf 2. Alle kennisgevingen van defecten, claims voor herroeping of vermindering moeten rechtstreeks worden gericht aan de afzender als verkoper. Geen enkele vertegenwoordiger of medewerker van The Dutch Auction Company is gerechtigd hiervan afwijkende garanties af te geven.
- Het veilingmanagement kan zonder rechtvaardiging kavels aanbieden buiten de numerieke volgorde en kan catalogusitems combineren, scheiden of intrekken.
- Elke deelname aan de veiling is voor eigen risico. In geval van schade aan tentoongestelde voorwerpen is de veroorzaker aansprakelijk.
- Afhaling van de geveilde objecten, ook door derden, is op eigen kosten en risico's.
- De factuur van de geveilde kavels dient betaald te worden conform paragraaf 5. Indien dit niet nagekomen wordt kan de veilingmeester naar eigen inzicht, nakoming van de koopovereenkomst vorderen door een vertragingsrente van 1% per maand over de hamerprijs plus opslag en incassokosten in rekening te brengen. Hij kan zich echter ook zonder voorafgaande kennisgeving of andere kennisgeving uit het koopcontract terugtrekken en de hamerslag annuleren en het object verkopen via een onderhandse overeenkomst. In dat geval is de succesvolle bieder aansprakelijk voor alle schade die het gevolg is van niet-betaling of te late betaling, in het bijzonder voor eventuele gederfde opbrengsten. Een eventueel gedane aanbetaling wordt in mindering gebracht op de schade.
- Op de veiling en alle geschillen die daaruit voortvloeien is Nederlands recht van toepassing. Dit geldt ongeacht de wettelijke woonplaats van de betrokken partijen.
- De Engelse versie van deze verkoopvoorwaarden is bepalend voor de beoordeling van geschillen.
- De bevoegde rechtbank is Breda, Nederland.

8. ALGEMEEN
- De veiling- en verkoopvoorwaarden worden aan iedere geïnteresseerde bekend gemaakt en tijdens de veiling in de veilingzaal toegelicht.
- Wettelijke identificatie, naam en adres van de koper zijn vereist voor het bieden op en veilen van een object. Registratie geeft de koper het recht om te bieden.
- Het is de verantwoordelijkheid van de koper om zich te beschermen tegen de risico's van verlies, diefstal, beschadiging en vernietiging van de betreffende kavels door tijdig een verzekering af te sluiten. Alle risico's zijn bij de koper na de hamerslag van het artikel.
- Hoewel wij ons uiterste best doen om ervoor te zorgen dat alle inhoud van onze kavelbeschrijvingen, catalogi en alle gedrukte en online communicatie zo nauwkeurig mogelijk is, geven wij geen garanties en kunnen wij niet aansprakelijk worden gesteld voor eventuele onjuiste informatie of typefouten.

- Le lot est adjugé au plus offrant. Le lot ne sera délivré à l'acquéreur qu'après règlement intégral du prix.

- Toute participation à la vente aux enchères se fait à vos propres risques. En cas de dommages causés aux objets exposés, la responsabilité de l'auteur en sera engagée.
- Chaque enlèvement des lots adjugés, même par des tiers, entraîne des frais et risques propres.

En cas de négligence, le commissaire-priseur peut, à sa discrétion, exiger l'exécution du contrat d'achat en facturant un intérêt de retard de 1% par mois sur le prix d'adjudication majoré des frais de recouvrement. Il peut cependant également résilier le contrat d'achat sans préavis ni autre notification et annuler l'adjudication et vendre le lot de gré à gré. Dans ce cas, l'adjudicataire sera responsable de tous les dommages résultant du non-paiement ou du retard de paiement, en particulier de toute perte de produit. Tout acompte versé sera déduit du dommage.
- La vente aux enchères et tous les litiges qui en découlent sont soumis au droit néerlandais. Ceci s'applique quel que soit le domicile légal des parties concernées.
- La version anglaise des présentes Conditions Générales de Vente fera foi pour l'appréciation des litiges.
- Le lieu de juridiction est Breda, Pays-Bas.

8. GÉNÉRALITÉS
- Les conditions d'enchères et de vente sont portées à la connaissance de toute personne intéressée et sont affichées dans la salle des ventes pendant l'exposition et la vente aux enchères.

- 電話競標請求必須在拍賣開始前 24 小時內提出。

2. 拍賣品

3. 擊倒/財產
- 該地塊將授予最高出價者。只有在買家全額付款後，才會將拍品交付給買家。
- 擊倒也可能是有條件的。如果被稱為“有條件出售”，則意味著未達到底價。拍賣行將先與賣方協商，然後通知買方其出價是否成功。這可能發生在銷售時或幾天之內。
- 如果兩個或多個競標者之間存在分歧，則可能會再次提供該拍品。
- 一旦投標被接受，將不再接受任何投訴。

4. 成交價/買家溢價

-適用於汽車 將收取 17% 的買方佣金。如果適用的話，這不包括買方保險費的 21% 增值稅*。

關於對買家佣金徵收增值稅的解釋（不是拍賣品的成交價，只是買家佣金）：

> 向在荷蘭和歐洲註冊的私人買家開立包含增值稅的發票。
> 在歐洲以外註冊的私人買家出口購買的拍品（拍品離開歐洲）將不開立增值稅發票。需提供批次的出口證明。
> 向在荷蘭註冊的商業買家（公司）開立包含增值稅的發票。
> 在荷蘭境外但在歐洲境內註冊的商業買家（公司）無需繳納增值稅。
> 在歐洲以外註冊的商業買家（公司）將購買的貨物出口到歐洲，無需開立增值稅發票。需提供批次的出口證明。

如果商業買家（公司）希望使用上述增值稅申請，則必須註冊為商業（公司）投標人。公司名稱、地址和增值稅號是註冊時必須提供的必需資訊。

- 線上競標者註意：如果您不是直接在荷蘭拍賣公司競標，而是在外部拍賣平台上線上競標，請考慮該平台收取的額外費用。該比例通常在 5% 左右。平台顯示他們使用了多少百分比。 25% 的拍賣成本會因該額外的百分比而增加。如果是5%，那麼網路平台的拍賣費用就是30%。

5. 拍賣品的付款
- 拍卖成交的拍品必须在拍卖结束后5天内全额付款并在拍卖地点提取，或在拍品所在的其他指定地点提取（如与拍卖地点不同）。付款方式可为现金（最高3,000欧元）、银行转账或信用卡支付。使用信用卡付款时，将在发票总金额上加收3%的手续费，以支付额外的信用卡费用。
